WHAT A NEWSPAPER DOES FOR A TOWN. -Dr. Holland, in his Topics of the Time in Scribner's for March, says:

- "A-bright, enterprising, influential paper in any-town is a centralizing power for all those interests. The press advertises the localityis the centre of its moral, political and social influence, and does more, perhaps, than any agency to attract the organized industry of its near and remote neighborhood. The city of Springfield, in Massachusetts, is perhaps as good an illustration of the power of the press to centralize trade and manufactures as the country offers. We wonder whether the resideats of that city know how much they owe to their papers for their constantly increasing numbers and growing prosperity. For twentyfive years they have had a press whose enterprise, industry, intelligence, and influence are supposed to have been without precedent or parallel in the history of provincial newspapers throughout the world. We think, indeed, that this is but a just statement of the fact; and there is nothing in the location of the town and its relation to the country to justify the suppo sition that it would have reached its present status through other causes. The town is known throughout the whole country by its press, and that press has magnified its importance and influence everywhere. It has been a centre of intelligence and a centre of attraction, and has done, in one sense, more than anything else to make the town what it is -- one of the brightest and most enterprising towns in New

PERU. - The birds have made Peru rich. According to news just received from Lima the guano deposits, as ascertained by Peruvian engineers and the officers of the British war vessel, the Petrel, amount to 7,650,500 cubic metres. This may be worth, at least, a hundred million dollars, and probably much more. Peru, it is now said, will have a large surplus fund after paying all her debts.

the purchaser.

kitchen range, a steam heating apparatus of

Gould's patent. &c., &c. The lot on which it tands from 160 feet on Washington street, and runs through the square to St Amph street, and contains about 38,000 square feet, or nearly one

acre of land, and is in beautiful order. It con-

tains a variety of choice fruit trees-pear, apple,

quince and cherry, a fine English walnut troe in

of the same width for a depth of 92 feet.

Third: A LOT on the west side of Washing-

ton street, between Duke and Wolfe, froncing 78 eet 5 mehes on Washington street and running back 113 feet to an alley 11 feet wide. There is a large FRAME TENEMENT on this lot.

ner of Union and Queen streets, fronting 67 feet

inches on Union street and running into the

Potemac river of the same width to the Port

Warden's line, having the advantage of dock room of 33 feet, being the north half of Queen

width into the Potomae. This let has a wharf

a front on said street of 476 feet, and running back to the Alexandria and Fredericksburg Railroad, containing about 34 acres. This lot contains a never failing spring of good water, and is bounded by the west bank of Hoff's run,

with the privilege of using its water. The terminus of the Street Railway is on this property,

and it is susceptible of division into building lots, which would be very desirable for mechan-

es and others wishing to make homes for them-

there is a very large quantity of excellent clay

who may desire to avail themselves of the much greater economy of living in Alexandria.
